¹These are projected teams. The actual teams may vary depending on the age and gender breakdown of the players.

²The Club Fee is per season. (Note: It may be slightly higher for some of the U15 – U18 teams depending on the qualifications, credentials, and experience of the coaching staff and the league in which the team participates.) **The Club Fee for U9 – U14 players for the fall season is due by June 20. A deposit of \$210 (i.e. ½ of the Club Fee) is due by June 20 for U15 – U18 players; the balance is due by November 14.** In lieu of full payment a partial payment may be made. A partial payment must be submitted with a completed scholarship form and the completed worksheet on the reverse side of this sheet. Partial payments and accompanying paperwork are due by June 20 for players in all age groups. The Club Fee (including a deposit or partial payment) is non-refundable except in unusual circumstances such as a season-ending injury or an unexpected move out of the area. Refunds will not be granted if a player simply decides not to play or to play for another club.

³The Team Expense is per season and per player. It is collected to cover seasonal expenses (i.e. tournament fees, coach reimbursements, etc.). Please note the indicated amounts are only estimates (i.e. some teams may incur significant seasonal expenses and require a payment higher than estimated, particularly teams at the high school level), but they are the maximum amounts that are reimbursable for scholarship recipients; therefore, they are probably higher than that which will actually be collected for most teams. The Team Fee is to be remitted to the team manager or a designated team representative upon request.

There are other personal expenses that you will likely incur throughout the season. These include (but are not limited to) participation fees for indoor league play, specialized trainings, and expenses for gas, lodging, meals, etc. They will vary from family to family depending on team, league, division level, extent of car-pooling, lodging arrangements, etc. Please note that these expenses are out-of-pocket and financial assistance from the Club is not provided to scholarship applicants to help cover these expenses.

⁴The current uniform (i.e. the uniform used this past fall and spring seasons) will be used for the upcoming fall and spring seasons. If a uniform is needed (or particular items comprising the uniform are needed), please see the team manager or designated team representative. Please note the indicated items represent the standard uniform and therefore are mandatory. Optional "uniform" items (e.g. backpacks) are available. They are not reimbursable.

Volunteer Commitment

Cutters Soccer Club is a not-for-profit organization. It depends almost exclusively on the help of volunteers for its existence. **The family of every player on a U9 – U14 team is required to volunteer 20 hours on behalf of the Club and/or team during the calendar year (i.e. August 1, 2008 – July 31, 2009); the family of every player on a U15 – U18 team is required to volunteer 10 hours on behalf of the Club and/or team during the calendar year (i.e. August 1, 2008 – July 31, 2009).** Families will be invoiced at the end of the calendar year at the rate of \$20 per hour for any hours short of the requirement. (A family may elect to "buy out" volunteer hours at the rate of \$20 per hour.)
